

ENTERGY NEW ORLEANS, LLC (ENO)
Request for Pre-Application Report
For Community Solar Generating Facilities Located in Orleans Parish
(Form CSG-RPAR)

Instructions

This Form is to be used by a Subscriber Organization to request initial information about a possible location for a Community Solar Generating (“CSG”) Facility in Orleans Parish prior to submission of an Interconnection Application.

This form may only be submitted by Subscriber Organizations that have completed the registration process and received a Subscriber Organization Identification Number from the Council’s Utility Regulatory Office (“CURO”).

All required information and supporting documentation must be submitted, and a non-refundable \$300 processing fee paid, by Subscriber Organization for this Request to be considered complete. Submit this completed application and all supporting documentation to Entergy New Orleans, LLC (“ENO” or “the Company”) via email: NewOrleansCouncilCommunitySolar@Entergy.com. Any questions related to this form should also be sent to NewOrleansCouncilCommunitySolar@Entergy.com. Following receipt of the Request, a company representative will contact the requestor to collect the non-refundable \$300 processing fee.

The following documentation must be submitted with this Request:

- Proof of Subscriber Organization registration with New Orleans City Council via the Council’s Utility Regulatory Office (“CURO”);
- Proof of Site Control (e.g., Letter of Intent or Memorandum of Understanding to secure long-term rights to property, evidence of property ownership, executed option to purchase lease, or executed lease agreement); The proposed Point of Interconnection defined by latitude and longitude, site map, street address, parcel identifier, or some combination of the above to sufficiently identify the location of the proposed Point of Interconnection.

Section 1. Subscriber Organization Information

Subscriber Organization Name: _____

Subscriber Organization Identification
Number (provided by Council through the
Council’s Utility Regulatory Office): _____

Mailing Address: _____

City: _____ State: _____ Zip Code: _____

Contact Person: _____

Telephone Number: _____ Email: _____

ENTERGY NEW ORLEANS, LLC (ENO)
Request for Pre-Application Report
For Community Solar Generating Facilities Located in Orleans Parish
(Form CSG-RPAR)

Proposed Location of Community Solar Generating Facility:

Facility Address: _____

City: _____ State: _____ Zip Code: _____

Contact Person: _____

Telephone Number: _____ Email: _____

Parcel ID: _____

Proposed Point of Interconnection (lat/long): _____

Site Map Included?

Yes _____ **No** _____

Proposed Generating Capacity of Community Solar Generating Facility:

Kilowatts-DC: _____ **Kilowatts-AC:** _____

Expected Annual Energy Production of Community Solar Generating Facility:

MWH per year: _____

Single or Three-Phase Configuration:

Single Phase: _____ **Three Phase:** _____

DER is stand-alone or will service onsite load:

Stand Alone: _____ **Serve Onsite Load:** _____

Will new service be requested?

Yes _____ **No** _____

**ENTERGY NEW ORLEANS, LLC (ENO)
Request for Pre-Application Report
For Community Solar Generating Facilities Located in Orleans Parish
(Form CSG-RPAR)**

Applicant Subscriber Organization acknowledges the following:

In requesting a Pre-Application Report, the applicant acknowledges the following:

- 1) The existence of “available capacity” in no way implies that an interconnection up to this level may be completed without impacts due to the many variables that need to be studied as part of the interconnection review process.
- 2) The Electric Delivery System is dynamic and subject to change.
- 3) Data provided in the Pre-Application Report may become outdated and not useful at the time of submission of the complete Interconnection Application.

I hereby certify that the information provided on this Request for Pre-Application Report is true and correct.

Company Name: _____

Signature of Subscriber Organization*: _____

Printed Name: _____

Title: _____

Date: _____

Mailing Address: _____

City: _____ State: _____ Zip Code: _____

Telephone: _____ Email: _____

Projected Installation Date: _____

****Application must contain signature of Subscriber Organization representative to be processed.***

A Company representative will execute and date below once all required information and payment have been submitted and the Request has been approved. Within twenty (20) business days of approval, ENO will provide a Pre-Application Report to the applicant using the form shown below.

**ENTERGY NEW ORLEANS, LLC (ENO)
Request for Pre-Application Report
For Community Solar Generating Facilities Located in Orleans Parish
(Form CSG-RPAR)**

PRE-APPLICATION REPORT

[TO BE COMPLETED BY ENTERGY NEW ORLEANS REPRESENTATIVE)

1. Interconnection Customer

This Pre-Application Report is for the following Subscriber Organization:

2. Proposed Point of Interconnection

The Subscriber Organization has requested information regarding the interconnection of a Community Solar Generating Facility at the following Point of Interconnection:

3. Substation and Feeder Serving the Proposed Point of Interconnection

The proposed Point of Interconnection for the Subscriber Organization's CSG Facility would likely be served by the following substation(s)/area bus(es), bank(s), or circuit(s):

4. Information Regarding the Proposed Point of Interconnection and the Identified Substation

The following information is based on an interconnection at the proposed Point of Interconnection served by the substation/area bus, bank, or circuit identified above.

- a. Total capacity of the identified substation/area bus, bank or circuit based on normal or operating ratings:

- b. Existing aggregate generation nameplate capacity interconnected to the identified substation/area bus, bank, or circuit (i.e., amount of generation online):

(Form CSG-RPAR)

- c. Aggregate queued generation capacity for the identified substation/area bus, bank or circuit (i.e., amount of generation in the queue):

- d. Substation nominal distribution voltage and/or transmission line nominal voltage (if applicable):

- e. Nominal distribution circuit voltage at the proposed Point of Interconnection:

- f. Approximate circuit distance between the proposed Point of Interconnection and the substation:

- g. Relevant line section(s)/station(s):

Actual or Estimated Peak Load:

Substation Transformer: _____ Feeder: _____

Actual or Estimated Daytime Minimum Load (If Available):

Substation Transformer: _____ Feeder: _____

- h. Number of Protective devices between the proposed Point of Interconnection and the substation/area.

- i. Number of phases available at the proposed Point of Interconnection:

- a. If a single phase, distance from the three-phase circuit: _____
